

A photograph of two women in conversation. The woman on the left is older, with short curly hair and glasses, wearing a patterned top. The woman on the right is younger, with dark hair and glasses, also wearing a patterned top. They are both smiling and looking at each other. A large teal graphic of the word 'nine' is overlaid on the left side of the image.

nine

honest conversation

Opioids are now one of the leading causes of injury-related deaths in Washington State.¹

75 percent of opioid misuse starts with people using medication that wasn't prescribed for them—usually taken from a friend or family member.²

You can be the one to help keep your family safe. Talk with your kids and share the facts with other parents.

STOP OPIOID MISUSE Your influence matters

- ✓ Kids are 50 percent less likely to use drugs when parents tell them about the risks.²
- ✓ Talk to your kids about the risks of opioid misuse.
- ✓ Encourage your kids to talk with their doctor about other ways to treat pain.
- ✓ Lock up your medications.
- ✓ Dispose of unused medications safely at a take-back program near you. Find one at **MED-Project.org**.³
