Protect your loved ones by disposing of unwanted, unused or expired opioid prescriptions safely at a Take Back Day site.

PROTECT YOUR LOVED ONES

Nearly half of people misusing pain relievers, including prescription opioids, get them from a friend or family member.¹

Last year, Washington residents returned 14,899 lbs of medication on National Take Back Days.

Over 326,600 lbs of medication have been safely disposed of at Take Back Day sites since 2016, reducing access to expired, unused, or unwanted medication.²
